

CURRICULUM VITAE

PERSONAL DETAILS

Surname: Motaung

First Name: Mandla

Gender: Male

Identity Number: 070263166225

Date of Birth: 19 January 1999

Country of Birth: Lesotho

Nationality: Mosotho

Marital Status: Single

Home Language: Sesotho

Other Languages: English, Zulu, Xhosa, Tswana, Pedi

Health Status: Good

Criminal Record: None

Hobbies:

- Playing soccer
- Reading
- Coding

CONTACT INFORMATION

Residential Address: Maseru 100, Lesotho

Cellphone: +266 639 73128

Email Address: maxphin21@gmail.com

EDUCATIONAL INFORMATION

School Attended: Letsatsing Combined School, South Africa.

Highest Grade Passed: Grade 12

Subjects Passed:

- Sesotho HL
- English FAL

- Life Sciences
- Life Orientation
- Geography
- Mathematics
- Physical Science

Bachelor of Science (B.Sc.) in Mathematics and Computer Science

Department of Mathematics and Computer Science (MACS)

National University of Lesotho

Expected Graduation: 2026

The program integrates advanced mathematical foundations with core computer science principles, including programming, data structures, algorithms, and systems thinking.

ACADEMIC & PROFESSIONAL INTERESTS

- Data Analysis & Data Mining
- Machine Learning & Deep Learning
- Software Development
- Human–Computer Interaction
- Cybersecurity

PROFESSIONAL CERTIFICATIONS

Cisco Networking Academy

1. Introduction to Cybersecurity

Issued: June 2025

- Foundations of cybersecurity principles
- Cyber threats, vulnerabilities, and attack vectors
- Basic network security concepts
- Risk management and data protection

2. Ethical Hacker (Intermediate Level Course)

Issued: 2025

- Footprinting and reconnaissance
 - Network scanning and enumeration
 - Web application security fundamentals
 - Vulnerability assessment techniques
 - Ethical hacking methodologies and defensive strategies
-

TECHNICAL PROJECTS

1. Web Application Security Practice Labs

- Performed vulnerability assessments on practice environments
 - Identified common vulnerabilities (e.g., XSS, SQL Injection, misconfigurations)
 - Practiced responsible disclosure principles
 - Applied ethical hacking frameworks learned through Cisco coursework
-

2. Sesotho–English Parallel NLP Dataset

- Built a bilingual dataset for Natural Language Processing research
- Cleaned, structured, and aligned parallel text data
- Focused on preserving authentic Sesotho orthography
- Prepared dataset for machine learning fine-tuning tasks

Technologies used:

- Python
- Google Colab
- Data preprocessing tools

3. Speech Accent Dataset Project

- Created a voice dataset of speakers saying “I love LLMs” in multiple accents
 - Structured audio data for training lightweight speech models
 - Optimized training pipelines under limited computing resources
-

4. Personal Portfolio & APK Project Hub

- Developed a mini-site showcasing technical projects
 - Built an APK with navigation buttons linking to project repositories
 - Deployed live portfolio:
<https://motaungmandla.vercel.app>
-

✂ TECHNICAL SKILLS

Cybersecurity:

- Basic penetration testing concepts
- Network security fundamentals
- Vulnerability assessment

Programming & Tools:

- Python
- Git & GitHub
- Google Colab
- Basic Linux usage

Networking:

- Fundamental TCP/IP knowledge
- Basic routing & switching concepts
